5. TEACHING METHODOLOGIES (INCLUDING EVALUATION)

TEACHING METHODOLOGIES:

Theoretical-practical expository method using audiovisual media; Case Study; Problem solving; Provision of e-learning content; Collaborative work tools; Periodic collaboration sessions. Teaching will be carried out through expository lessons, debates, problem solving, individual research (works), studies and case solving through extensive discussion in classes about the subject taught and its applicability to the concrete case and always with an appeal to students for the resolution of questions of a practical nature that will constantly be proposed.

EVALUATION RULES:

Continuous assessment: the student obtains approval when the weighted average of two factors is equal to or greater than ten values, being exempt from the exam.

First factor: mandatory attendance, weighted with 70% of the final grade, on a date to be set by the ESTG Board.

Second factor: mandatory completion of a work, with presentation and discussion, being delivered in paper format and digital support, weighted with 30% of the final grade.

Assessment by exam in the normal period: the student obtains approval when the weighted average of two factors is equal to or greater than ten values, being exempt from the exam.

First factor: mandatory attendance, weighted with 70% of the final grade, on a date to be set by the ESTG Board.

Second factor: mandatory completion of a work, with presentation and discussion, being delivered in paper format and digital support, weighted with 30% of the final grade.

Assessment by exam at the time of appeal: the student who has not passed the continuous assessment or by exam in the normal season, or has not taken it, obtains approval when taking the exam at the time of appeal with a classification equal to or greater than ten values , on an entire scale between zero and twenty, on a date set by the Board.
